  - To impart knowledge and learning in a manner that helps transform students into good human beings with a sense of social responsibility.
  - To foster a learning community in which the diverse values, goals, and learning styles of all students are recognized and supported.
  - To motivate our students towards professional/vocational endeavours and serve them with a comfortable platform where they can explore their talents in their respective fields of interest
  - To inculcate values of discipline, hard-work, team-spirit, scientific tempers and to develop critical thinkers.
  - Entering into alliances with industry and academic partners to enhance the college's educational as well as vocational and career opportunities
  - Encouraging students for participation in academic along with extracurricular activities
- 

## Bir Raghav Moran

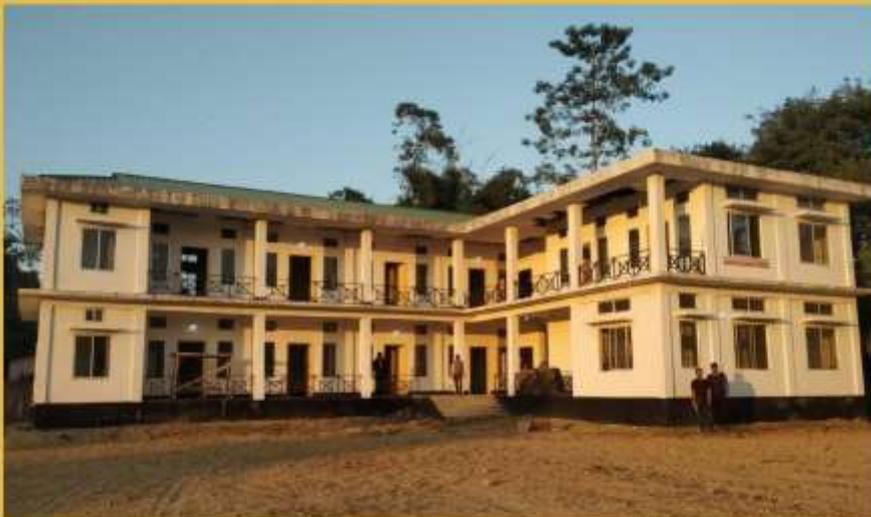

In the annals of medieval Assam history, among all the notable personalities, the name of Bir Raghav Moran is always remembered for his courage, bravery, leadership, and sacrifices for the sake of the Assamese proletariats. He played a very significant role in the Moamaria Rebellion during the reign of Swargadeo Laksmi Singha which was a spontaneous outburst of simmering discontentment against the exploitative nature of the Ahom regime. In various circumstances, Raghav Moran alias Raghav Neog himself faced a number of discriminations and hardships from the authoritarian Ahom administration. Kirtichandra Barbarua's physical torture and assault not only made him angry but also the entire Moamaria sect was thereby insulted. Besides, the religious policies adopted by the contemporary Ahom rulers posed a great challenge to the Moamarias. It made the entire Moamaria sect discontent and there grew a sense of hatred and dissension against the Ahom rule.

In this regard, Raghav Neog along with his friends and followers, remaining at the forefront organized and united the Moamarias against the mighty Ahom rulers to take revenge with a view to establish the Moamarias in a legitimate position in the feudal Ahom society. Subsequently, the Ahom rulers were bound to bow down to them which ultimately gave birth to the Muttock Kingdom. From this point of view, Bir Raghav Moran who used to be a popular leader from the Moran Community among the Moamarias, is still a hero not only in the minds of the Moran community and Vaishnavite Moamaria sect but also among all those who are looked down upon as downtrodden and ignorant in the entire Assamese Society. He remains in the hearts and minds of Assamese people as one of the most remarkable cultural and historic luminaries of Assamese socio-cultural life.

# COLLEGE PROFILE

Bir Raghav Moran Government Model College, Doomdooma was established by the Government of Assam on 7th March, 2020. With the central aim of improving access, quality and fostering equity in the higher education scenario of Assam, Government of Assam, in consonance with the centrally sponsored scheme of Model Degree Colleges, set about this enterprising journey of creation of educational institutions catering to higher education needs. On the basis of nationwide survey of Gross Enrollment Ratio (GER) or Gross Enrollment Index (GEI), educationally backward districts or EBDs have been identified which share the characteristic feature of having GER lower than the national average. 12 EBDs have been identified in Assam, out of which Tinsukia is one of them. Our college is a successful manifestation of this spirited initiative of Government of Assam. In the more local context, our college has been able to assuage the severely disproportionate student to higher education institution ratio existing in the Doomdooma region.

It is noteworthy that the name of the college, “Bir Raghav Moran Government Model College” holds immense cultural and historical significance for the inhabitants of this region and Assam, at large. In a way, the college implicitly carries forward the glory and immortalizes Bir Raghav Moran, the historic pride and son of the soil of the Moran community and a notable cultural figure and historical luminary of the Assamese socio-cultural life.

The cultural and demographic landscape in which the college is situated in has deeply helped in shaping our vision, mission and ideals. Culturally, the area comprises of a rich intermix of cultures and ethnicities. This inspires the foremost ideal of the college to be inclusive in every sense and uphold by heart and soul, the idea of ‘unity in diversity’. It also serves the college an opportunity to hone and showcase the cultural resources and knowledge the students here can offer. A dominant component of the industrial landscape here is the tea sector. Besides, an inclination towards entrepreneurship among students is readily observed. Under such circumstances, the college has a topmost priority of providing a facilitative platform aiming at inculcating the right scientific and technical knowhow and skill-based training to the youth, so that they can materialize their dreams.

Even though, the principal rationale of our college when established was to rectify the disproportionate student to higher education institution ratio existing in the Doomdooma region. But currently, our aspirations go well beyond this aim. In addition to adequately fulfilling the core demands related to higher education needs in this region, we have the grand aim of materializing excellence in education through the means of our institution. The dream is to build a state of the art educational agency that would attract talented young minds from the farthest corners of the state setting on a reversal, the process of brain drain that has become the order the day for students here.

Notwithstanding the fact that the college had been recently established, it is a matter of great pride and contentment that regular official classes for UG 1st Semester course in the college successfully began from 21st December, 2020 with an overwhelming student enrolment rate. Although the classes are currently being held in a temporary structural arrangement provided by Government of Assam in the Doomdooma College premises, the permanent campus and building will be ready in near future as the Government of Assam is ramping up efforts for the same. The planned permanent infrastructure and the sprawling campus would comprise of the entire range of amenities required for our college to become an educational institution of excellence starting from spacious and educational technology laden classrooms and library facilities to expansive playgrounds for co-curricular and recreational activities.

Bir Raghob Moran Government Model College has made its humble beginnings with a Three-year Degree Programme (Honours) in Arts under CBCS, Dibrugarh University and a Three-year Degree Programme (Non-Honours) in Arts under CBCS, Dibrugarh University. A few months into our academic journey, the dreaded Corona virus hit again, this time in the form of a second wave, but we have been resilient and strong. Despite being in a formative state, we have made successful arrangements for virtual classes. Notably, the extracurricular activities in college despite the pandemic, have also been vibrantly maintained with webinars, online contests and other programmes being regularly organized by our staff with overwhelming student participation as a constant feature of such endeavours. Such success for a young institution like ours can be attributed to the pro-active attitude, right

efforts and cooperation received from all quarters- faculty, students, even the society and neighbourhood.

The College presently has 8 departments viz., Education, Asamese, English, Sociology, History, Political Science, Economics and Mathematics. Our faculty profile is formidable characterized by good academic career, research and teaching experience and notable research publications. Besides a good academic career, the faculty of our college also boasts of diverse skill sets inclusive of leadership skills, cultural and social activism, music and other artistic talents.

The students of our college are an enterprising lot, in a short span of time, as the first batch of students, their enthusiasm to do their level best and their good will for this new college is praiseworthy. Their willingness towards learning and knowledge in spite of the fact that most of them belong to economically humble backgrounds is commendable. Apart from this, the diversity of talents among our students, more of which is yet to be discovered, is truly instrumental to the overall growth of our institution.

We, as a community comprising of the students, teachers and even members of the larger society are working together relentlessly to raise our college into an institution of excellence. We collectively share the dream of transforming the region into a blossoming educational hub and resolve to spare no effort to ensure the youth here, a brighter future not only in terms of education but also, in terms of socio-economic empowerment and self-sufficiency.

# PRINCIPAL'S MESSAGE

**Dr. Amorjit Saikia**  
**Principal, Bir Raghav Moran Governemnt**  
**Model College, Doomdooma**

Greetings from the Principal, Bir Raghav Moran Government Model College, Doomdooma, a novel educational institution of higher education under the initiative of Government of Assam, affiliated to Dibrugarh University.

Bir Raghav Moran Government Model College, Doomdooma, in essence, is an accomplishment of the government's vision of enhancing quality, accessibility and equity in the higher education scenario of Assam. Tinsukia, falling within the parameters of an educationally underperforming district of the state of Assam, urgently was in need of an additional higher education institution

cater to the educational needs of the local student population. Our college is a very timely and necessary step in this direction.

The true purpose and rationale of this newly established college can be understood better through the region's socio-cultural and educational background story. Doomdooma boasts of a culturally rich and diverse social fabric and a prolific scene of industrial and entrepreneurial activities; but at the same time the region also suffers from the perennial issues of socio-economic backwardness and most importantly, the dearth of higher education opportunities for eligible and aspiring students. Under the circumstances, the establishment of our college has been nothing short of a blessing for the local student population and the society, in general.

The first academic session(2020-21) of the college formally commenced from 21st December,2020 and now here we are, at the brink of the second batch of admissions. The journey so far, although brief has been indeed fruitful. Come what may, our staff along with students have been very resilient. More than half of the time period of our maiden academic session had to be run from our homes due to the Covid-induced lockdown. We have not shied away from our duties. Our teachers have provided regular, interactive virtual classes to students and even managed quite successfully, the conduction of extra-curricular activities (contests, celebration of events, webinars etc). We had encountered a healthy admission rate and student turnout in the first ever round of admissions and with great confidence, we expect an equally exuberant student response in this round of admissions in the coming session (2024-25). Within a short span of time, we have discovered diverse talents and skillsets among our students and their enthusiasm and willingness towards learning and education remains unmatched.

While education is our primary focus, given the underprivileged socio-economic position of the families that our students mostly belong to, we shall also strive to provide them an enabling environment for their positive transformation into social capital such that, they can live free from economic insecurity and function as productive members of the society. Therefore, along with academic training, we try to motivate our students into professional endeavours and serve them with a comfortable platform where they can explore their talents in their respective fields of interest. To this end, our agenda for the near future incorporates collaborative engagements with government/non-government organizations, industries surrounding the theme of vocational empowerment of students.

Widely known as the tea city, Doomdooma prides itself on a sprawling tea industry and an aesthetic atmosphere of tea plantation to an extent that the occupational mainstay of the local population is majorly within this sector. The youth here, in this sense, is deemed rather naturally inclined towards the tea sector. We perceive this as an untapped reserve of entrepreneurial potential. Bearing this in mind, we aspire to provide a facilitative platform aiming at inculcating the right scientific and technical knowhow and skill-based training to the youth. Futuristically, such a step would be conducive for the students to gainfully and effectively engage in the niche tea market of the region. The vision is to professionally sculpt them in a manner so that, they can uplift the indigenous tea sector to the heights of international market efficiency and competition.

From a broader perspective, our institution's vision also incorporates the promotion of a participatory model of all round educational and social development of the region, involving stakeholders from all quarters with the intention of eventually, infusing a scientific temperament in and widening the mindsets and worldviews of the youth and by extension, the society as a whole.

As the founding head of this new institution, I bear a profound sense of obligation towards the youth and the society of this region. The entire Bir Raghav Moran Government Model College family, as a matter of fact, collectively shares the dream of transforming the region to a blossoming educational hub and resolve to spare no effort to ensure the youth here, a brighter future not only in terms of education but also, in terms of socio-economic empowerment and self-sufficiency.
